STARTING LINE: Initial start will begin at a designated point in turn 4 where the GREEN cones are. You must maintain your original line up until you pass the start line.

FEATURE/HEAT RACE STARTING POLICY: All starts (single or double file) will begin at a starting area (GREEN cones) designated by track officials. The leader will approach the starting area at a MODERATE PACE, and cannot start racing (accelerating) until reaching the starting area. Leader or front row drivers starting early will result in the race not starting and will be warned 1 time. Second offense that car/cars will GO TO THE REAR. No driver may pass another driver, until the leader or lead cars have passed the starting area and the GREEN FLAG/light is on.

Once the green flag drops, the race is officially underway. On the original start and before one (1) complete lap is scored, if a car is judged to have spun out on his own or caused the accident, they will be placed in the REAR. In the absence of a consensus of the judges, all cars involved in the caution or came to a stop will receive their original starting positions, provided there are no penalties to be assessed.

Any car that is found guilty of (BRAKE CHECKING) on the start, or restarts, will be warned 1 time. Second offense that car will GO TO THE REAR.

If a race can't be started after TWO attempts, all cars will go to a single file start.

FEATURE/HEAT RACE RESTART POLICY: Restarts will be double or single file (watch the flagman). The line-up on a restart will be reverted back to the positions of the cars as they crossed the Finish Line (FLAGSTAND) of the last completed lap. All lapped cars will go to the rear on all restarts. The key word is COMPLETED in the policy. A lap is completed when OVER 50 % of the cars cross the finish line. Restarts follow starting policy for procedures above!

Double or single file RESTARTS will be decided by track officials.

For double file RESTARTS the leader will be on the point-by themselves.
The second place driver will choose to restart high or low.
After they choose the rest of the field will follow.

For instance - if second place chooses high the third place car goes low, the fourth goes high and the fifth goes low and the sixth goes high etc...

The track owners shall be authorized to alter any of these specifications, or impose any further restrictions that, in their opinion, do not change the minimum acceptable requirements, and that provide for a safe and competitive environment. No expressed or implied warranty of safety shall result from such alteration of specifications.

Any interpretation or deviation of these rules is left to the discretion of the Race Director or Track Owner. The decision is final, without appeal.

If a spectator, competitor or official initiates or maintains litigation in violation of this agreement, that person agrees to reimburse CS for the costs of such litigation, including attorneys' fees, the participant or competitor further agrees that in any litigation brought against CS for any reason, the matter will be tried before a judge of Benton County, Tennessee and hereby waives any right to trial by jury in such action.
